### **Australian Paper FSC Commitment**

All aspects of our paper production systems and pulp purchases have been endorsed by Australian Paper's Chief Executive Officer; in line with our established company policies on fibre management, we will not obtain;

- a. Illegally harvested wood;
- b. Wood harvested in violation of traditional and civil rights;
- c. Wood harvested in forests where high conservation values are threatened by management activities;
- d. Wood harvested in forests being converted to plantations or non- forest use;
- e. Wood from forests in which genetically modified trees are planted.

All non FSC wood/fibres have been risk evaluated to ensure that they comply with FSC requirements as stipulated in FSC-STD-40-005 (V2-1) *FSC standard for company evaluation of FSC controlled wood*. This evaluation will be ongoing with formal reviews conducted a minimum of once per annum.

Records of all pulp procurement are maintained and retained for 5+ years as per FSC-STD-40-005 (V2-1).

Jim Henneberry  
Chief Executive Officer, Australian Paper
